January 7th, 2010

PRESS RELEASE

New NeovinyL Netlabel release. On this occasion, the Galician producers Lefrenk and Frances Lerouge are responsible for shaping this new release, with a careful shared EP called "Cuentos & Cantigas".

Both producers already highlighted in the netlabel scene with other work, share the idea and the need of expression, to create a particular way of telling stories and emotions. Another way to cope and live day by day, gradually forming a kind of diary and a sound world of their own.

The sound and style of this release reminiscent Jonh Tejada a few years ago, with Tech House touches and sweet tunes, recall the most classical topics beginning of this decade. We hope that help you to evade reality and adentreis you the secrets of their world.
